## INTRODUCING APRIL ZANGL, THE FRESH FACE AND FOUNDER OF APRIL RAIN SKIN SCIENCE

April is the fresh face and driving force behind Night Rainew®. Working closely with Night Rainew's® guiding dermatologist and scientific formulators, April has created and launched Night Rainew®, the most luxurious anti-aging night cream on the market. April's professional experience as a health and wellness expert and her enthusiasm to help others live a healthy life inspired her to create the April Rain Skin Science® line. Just as April sought to understand how a certain exercise would condition her body, she wanted to know how skin care ingredients affected skin. It is April's belief in promoting beauty both inside and out that has driven April through her life and in business. Over time she became a skin ingredient expert and progressively wondered why companies didn't create healthier, more advanced, multifaceted products to make life easier, results faster and more apparent. This led April to create the April Rain Skin Science® collection with HydroPeptide®, the only line that positively drenches your skin with fresh science.

# APRIL RAIN SKIN SCIENCE® -

THE CLINICALLY PROVEN POWER OF HYDROPEPTIDE®.

## Aging skin thirsts for collagen!

Collagen is a fundamental skin-cell building block that helps skin maintain a supple, firm, wrinkle-free appearance. There are three key types of collagen (I, III, IV) in facial skin that are critical to maintaining a healthy and youthful complexion.

**The Wrinkled Truth:** When skin matures it produces less collagen and allows fine lines and deeper lasting wrinkles to form.

Night Rainew® is the crowning blend of science and nature clinically proven to prevent, protect and reverse the signs of skin aging for the most healthy, beautifully transformed and younger-looking skin.

- \* Collagen III levels tripled after 7 days which provides smooth, more healthy, youthful skin\*
- \* 15 days produced 128% increase of Collagen I which helps build skin elasticity\*
- \* 15 days showed an 81% increase in Collagen IV which firms and lifts skin\*
- \* In just 30 days, fine lines and wrinkles were reduced by as much as 63%\*
- \* Stubborn forehead wrinkles decreased up to 52% in just 30 days\*

SO DON'T JUST TAKE IT FROM US! CLINICAL STUDIES PERFORMED BY 3RD PARTY LABORATORIES PROVE THE COLLAGEN BUILDING AND AGE-FIGHTING POWER OF THE PEPTIDES CONTAINED IN OUR EXCLUSIVE HYDROPEPTIDE®.

\*Claims are based on independent studies conducted by Lipotec and Pentapharm. HydroPeptide® contains clinically proven levels of all active ingredients.

# THE ONLY NIGHTTIME CREAM HER SKIN WILL EVER NEED TO KNOW.

Night Rainew® does all the work, giving her an effortless second chance for youthful skin.

Night Rainew® is her skin's smoothing and renewing answer. Night Rainew's® exclusive HydroPeptide® provides the key to unlocking younger skin with the highest potency of clinically concentrated peptides proven to help stimulate collagen growth and slow its deterioration.

*"HydroPeptide mimics the effects of the venom of the Temple Viper. In the case of Night Rainew, this is a very good thing because fine lines and wrinkles due to small overactive facial muscles are reduced. That means smoother, fresher, younger-looking skin. Combine that with Buddleja (butterfly bush, a plant of Chinese origin) extract known for its wound-healing properties, and the result is a cutting-edge cream that blends modern technology with traditional Chinese medicine."*
